Dr. Kevin Sightler
Director of Substantive Change
Commission on Colleges
1866 Southern Lane
Decatur, GA 30033

Dear Dr. Sightler:

I am writing to notify the Commission on Colleges of the discovery of an unreported substantive change. In June 2020, the Academic Programs Committee of Dalton State College approved the deactivation of the college's Bachelor of Applied Science in Scientific Technology program, effective Fall of 2020. This deactivation was due to low enrollments into the program. Our SACSCOC Institutional Accreditation Liaison at the time believed that a deactivation did not amount to a program closure. As such, we did not submit a teach-out plan to SACSCOC for approval in compliance with the SACSCOC Substantive Change policy. In reviewing past actions as part of our Compliance Certification self-study, our new liaison identified the error.

We have included information in the enclosure regarding steps that were taken to ensure that all currently-enrolled students were given the opportunity to complete their degree programs.

Please let me know if any further information is needed. Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Margaret H. Venable".

Margaret H. Venable, Ph.D.
President
mvenable@daltonstate.edu

Copies to: Dr. Nicholas Gewecke,
 Director of Institutional Effectiveness and Assessment/Associate Professor of Mathematics

 Dr. Bruno Hicks
 Provost & Vice President for Academic Affairs

1. A completed Substantive Change Cover sheet.
Included.

2. Provide the closure date, defined by SACSCOC as the date when students are no longer admitted.
The program was closed to new students as of August 1, 2020.

3. An explanation of how affected parties – students, faculty, and staff – will be informed of the impending closure.

The proposal to deactivate the program was circulated to all faculty and staff in an email from Ms. Elizabeth Chadwick on 06/23/2020. The proposal was approved through a virtual meeting by the Academic Programs Committee on 07/01/2020 and the meeting minutes were circulated by email on 11/12/2020. Students were informed in meetings with their advisors.

4. An explanation of how all affected students will be helped to complete their programs of study with minimal disruption or additional costs.

The Bachelor of Applied Science in Scientific Technology is designed to provide applicants, who have earned an Associate of Applied Science degree, the opportunity to continue their education in a field of science and to pursue a position in an industrial laboratory setting. All courses that are required to complete the program are also required to complete the bachelor of science in biology or the bachelor of science in chemistry. Therefore, no courses were discontinued as a result of the closure of the program and each student was allowed to continue their program without disruption.

5. Explain whether the students subject to the teach-out plan will incur additional charges or other expenses because of the teach-out and, if so, how the students will be notified.

Students will not incur additional charges.

6. Copies of signed teach-out agreements with other institutions, if applicable.

N/A

7. A description of how faculty and staff will be redeployed or helped to find new employment.

No faculty or staff were dedicated to this program and, therefore, none will be redeployed or terminated.

Substantive Change Cover Sheet

Submit to SACSCOC,
Substantive Change, 1866
Southern Lane, Decatur, GA
30033. One copy only;
electronic media preferred. Do
not email submissions or send
copies to staff. Thank you.

Note:

1. Include a completed cover sheet with each submission; please don't submit a cover sheet only.
2. Submit substantive changes as separate submissions except as permitted by policy.
3. Submit substantive changes defined in policy only; others are not reviewable.
4. For best results, download this form and complete with [Adobe Reader](#). Hover mouse over fields for guidance.
