## PROGRAM IN BRIEF

The program will be conducted in four weeks beginning in mid-May at Zhengzhou University, Zhengzhou, China. The dates of the program are May 7 through June 5, 2012. The academic theme of this year's program is "Fostering Global Citizenry through Cultural Exploration."

This study abroad is a collaborative program co-sponsored by Dalton State College, Valdosta State University, and the Asian Council of the University System of Georgia (USG). The program's main host institution is Zhengzhou University (ZZU), a comprehensive educational institution with over 56,000 students and brand new campus facilities, in central China. Campus representatives of the Asia Council will serve as coordinators who will administer recruitment of faculty and students at their own institutions.

The main goal of this study is to help students acquire a general grasp of the social, economic, and political systems of a different society and further a comparative worldview that can enhance competence in their careers. Instructions will include class lectures, written projects, field trips, and weekend excursions. An orientation session will be given to students on first day of the class in the host university. Instructional formats specified above will meet the minimum number of class contact hours stipulated by the Board of Regents.

The program will begin with an educational tour of Beijing. On-site lectures and tours of famous cultural

and historical sites will be given. While in Zhengzhou, a number of out-of-town short field trips to Luoyang and Dengfeng will be offered. Students will be able to explore some of the impressive Chinese historical and cultural sites. Course-specific local field trips will be also arranged while in Zhengzhou. Each student is required to sign up for two courses. Short non-credit courses may be offered based on students' interests.
